

## VIII INTERNATIONAL SUMMER SCHOOL OF MATHEMATICS 2019

### FIRST ANNOUNCEMENT

The Andalusian Society of Mathematical Education THALES, through the ESTALMAT Andalucía project, and the University of Sevilla, through the Institute of Mathematics (IMUS), in the framework of an agreement signed by both entities, with the collaboration of the Euler Foundation and the Saint Petersburg State University, announce the Eight International Summer School of Mathematics (VIII EIVM), after the success of the preceding editions held in Saint Petersburg, as a part of “*Formulo de Integreco*” (2012, 2013, 2015, 2017, 2018), and in Seville (2014, 2016).

The School, organized as a camp, will take place during the second half of July 2019 in Seville (Spain). It will be addressed to students from 14 to 17 years old, who feel special interest in Mathematics

Accommodation will be provided in a University Dorm, in single or double rooms with shared bathroom.

The main work language will be in English. Consequently, a good knowledge of this language will be essential to attend the camp.

The Camp includes:

- Solving math problems.
- Math battles and other math games.
- International communications.
- Sport activities and swimming.
- Sightseeing to Monumental Historical Ensemble of Seville and to another Andalusian Cultural Center (Córdoba Mosque, Alhambra of Granada, Itálica (Roman City), Doñana Nature Reserve,... yet to be decided).

The conditions to participate in the school will be announced in a **CALL** to be published by the end of November 2018. Special conditions for:

- Students from entities related to the conveners and organizers institutions
- Winners of Thales, RSME and Formulo de Integreco Olympiads
- Students from institutions or entities expressly agreed with the organization

are planned.
